- Dry Fire Protection System

DESIGN PROFESSIONAL

IDENTIFICATION OF RESPONSIBILITIES

I hereby state that the above information is correct and complete to the best of my knowledge and is in compliance with all applicable Administrative Code Provisions and all Departmental Rules, Regulations, and Directives, except where noted.

I certify that this building is non-hazardous and does not require backflow preventer(s) according to the latest DEP Supplement to the New York State Department of Health's Handbook for Cross Connection Control.

I also certify that this building's fire service, which is an AWWA M-14 Class (I/II) system, is non-hazardous and requires only the single check valve required by the NFPA.

Falsification of any statement is a misdemeanor under section 26-124 of the Administrative Code and is punishable by a fine, imprisonment, or both.

It is unlawful to give to a city employee, or for a city employee to accept, any benefit, monetary or otherwise, either as a gratuity for properly performing the job or in exchange for consideration. Violation is punishable by fine, imprisonment, or both.

OWNER

I hereby state that I have authorized the above noted Design Professional to perform the work specified herein, and agree to indemnify to the fullest extent permitted by law, the City of New York, the New York City Water Board, and the New York City Municipal Water Finance Authority (hereinafter collectively called "the City") and their respective officers, representatives, agencies, contractors, servants and employees from and against any and all claims, suits, actions, proceedings, and losses ("claims and losses") that may arise from the exemption from using Cross Connection Control device(s) after the date of this certification.

In the future, if the building use has been changed and will require backflow prevention device(s), in compliance with State & City rules, I will insure submittal of a new application that reflects the new use.
