JVN: #81607113152FSM **CITYWIDE JOB VACANCY NOTICE**

Civil Service Title:	Certified IT Developer (Applications)	**Level:**	I
Title Code No.:	13643	**Salary:**	$63,884 – $86,786
Office Title:	Certified IT Developer	**Work Location:**	22 Cortlandt Street, New York, NY
Division/Work Unit:	Division of Financial & Strategic Management/Bureau of Informatics and Information Technology (Homeland Security)	**No. of Positions:**	1
Hours/Shift:	Full-time	**Position(s)#:**	922072

JOB DESCRIPTION:

The Certified IT Developer will perform tasks related to the development of computer applications and data transformation activities. Duties include, but are not limited to, developing, designing, implementing, enhancing, maintaining and analyzing software systems. The prospective employee should be at an expert level in several of the following concepts/technologies: J2EE, Web-based application development (Java/JSP), Enterprise Service Bus, XML, XSLT, relational database management systems (RDBMS), and SQL. The candidate will also be responsible for reviewing and developing detailed system specifications and modifying existing applications to accommodate changing business needs. Knowledge of HL7 is a plus.

PREFERRED SKILLS:

- Minimum two years experience hands-on application development, including browser-based applications, with hands-on development in a production environment with Java, J2EE, JSP, XML, XSLT, MS, MS SQL Server.
- Hands-on experience with relational database design and implementation.
- Experience with the development of web applications.
- Excellent verbal and written communication skills and the ability to work independently and collaboratively.
- Excellent analytical, organizational, and interpersonal skills.
- Ability to analyze and understand complex business processes.

QUALIFICATION REQUIREMENTS:

Professional/vendor certification(s) in computer applications programming that is required for the position to be filled.

In addition, all candidates must have the following:
1. A Baccalaureate degree from an accredited college, and two years of satisfactory full-time (not classroom based) experience in computer applications development planning, design, configuration, installation, troubleshooting, integration, performance monitoring, maintenance, enhancement, and security management;
or

2. A four-year High School diploma or its educational equivalent and six years of satisfactory full-time (not classroom based) information technology experience of which at least 2 years must have been as described in (1) above; or

3. A Masters degree in computer science or a related field from an accredited college may substitute for one year of experience. However, all candidates must have at least one year of satisfactory full-time (not classroom based) information technology experience as described in (1) above.

NOTE:
In addition to meeting the minimum Qualification Requirements:
Incumbents may be required to update existing and/or obtain additional professional industry-standard certification(s) for current and future technical environment(s) in which they may be assigned to work, as determined by the employing agency.

SPECIAL NOTE:

ALL APPLICANTS MUST BE CERTIFIED BY IBM CERTIFIED SOLUTIONS DEVELOPER – WEBSPHERE MQ V5.3
