Job Description

Will be responsible for Oracle and Application monitoring and reporting utilize Veritas I3. The individual will be responsible for installation of the product on AIX Servers, gathering SLA requirements from DBA and Application groups, configuring the product, setting up alerts, reviewing and analyzing performance statistics, creating management graphs and reports, and working with DBA and Application groups to review bottlenecks. Individual should be level 1 support for all DB and App response time alerts and should be able to review performance and alert results and escalate issues to the manager of the appropriate technical group for further analysis. Individual will be responsible for creating weekly and monthly performance charts and highlighting trends. Oracle DBA experience on an AIX platform is required, as is detailed knowledge of Veritas I3. Capacity planning experience is a plus, as is any familiarity with Mercury Loadrunner.

Qualification Requirements

1. A master's degree in computer science from an accredited college and three years of progressively more responsible, full-time, satisfactory experience using mainframe, mini- or micro-computer technology in computer applications programming, systems programming, computer systems development, data telecommunications, data base administration, or planning of data processing, at least 18 months of this experience must have been in an administrative, managerial or executive capacity in the areas of computer applications programming, systems programming, computer systems development, data telecommunications, data base administration, or planning of data processing or in the supervision of staff performing these duties; or **2.** A baccalaureate degree from an accredited college and four years of experience as described in "1" above; or **3.** A four-year high school diploma or its educational equivalent and six years of experience as described in "1" above; or **4.** Education and experience equivalent to "1", "2" or "3" above. However, all candidates must have at least a four-year high school diploma or its educational equivalent and must possess at least three years of experience as described in "1" above, including the 18 months of administrative, managerial, executive or supervisory experience as described in "1" above.

Essential Skills

AIX System Administration experience is required, as is detailed knowledge of either BMC Patrol or Veritas 13. Working knowledge of both is preferred. Capacity planning experience is a plus, as is any familiarity with Mercury Loadrunner.
