Job Description

As the Senior PeopleSoft Developer, s/he will support ongoing production maintenance and phased rollout implementation of the HR and Benefits functions of PeopleSoft HRMS for the New York City Automated Personnel System (NYCAPS). Under the direction of the Development Lead, the PeopleSoft Developer has the primary responsibility of ensuring the quality of the software architecture, the vendor's modifications to the NYCAPS system, as well as any associated custom development to meet the City's functional and technical requirements and enable FISA to operate and maintain the software application in a cost effective manner after the implementation. This position will work closely with the Project Manager, Functional Design Lead, Business Analysts, Test Lead and key business partners to design, develop, test and implement product initiatives to support production. This person will work in various teams, but will need to have the ability to work independently and prioritize tasks to meet project deadlines.

The Primary Responsibilities include: • Work in a functional/technical capacity with a good understanding of business processes, relational databases and PeopleSoft table structure • Collaborate with release teams to provide analysis, design, development and testing guidance and support. • Streamline implementation and support of project systems. • Update documentation and improve processes. • New process/code development; custom enhancements to existing code, application patches/fixes/upgrades. • Data and/or process analysis; code documentation; performance tuning; enhancements. • Creation and review of Technical Designs; unit testing; bundling/un-bundling of code using PeopleTools 8.45 and Oracle 9.2x Platforms. *Project-Focused Responsibilities include:* • ***New Functionality Releases:*** Responsible for a subset of the development, customization and integration work associated with the expansion of the current PeopleSoft baseline (NYCAPS) to include new modules and/or new functionality to existing modules.

• ***Existing Functionality:*** Responsible for development across multiple environments, related to fixes/patches, enhancements and upgrades to existing NYCAPS functionality including code changes to existing objects, interfaces and conversions necessitated by data fixes, functionality patches, and upgrades; as well as production support tasks related to the identification, tracking and resolution of issues found in the production environment. • ***Agency Rollout Support:*** Responsible for creating new or enhancing existing conversions and interface programs to meet Agency requirements. These will include, technical analysis, technical design (technical specifications), development, unit testing, unbundling of code, customizations, and documenting code using PeopleSoft HCM 8.8, SP1 Tools 8.45 and Oracle 9.204 Platforms. Mainframe and COBOL knowledge/experiences are highly desirable as it is necessary to create interfaces between NYCAPS and other systems for the rollout of NYCAPS to City Agencies.

Qualification Requirements

1. A master's degree in computer science from an accredited college and three years of progressively more responsible, full-time, satisfactory experience using mainframe, mini- or micro-computer technology in computer applications programming, systems programming, computer systems development, data telecommunications, data base administration, or planning of data processing, at least 18 months of this experience must have been in an administrative, managerial or executive capacity in the areas of computer applications programming, systems programming, computer systems development, data telecommunications, data base administration, or planning of data processing or in the supervision of staff performing these duties; or **2.** A baccalaureate degree from an accredited college and four years of experience as described in "1" above; or **3.** A four-year high school diploma or its educational equivalent and six years of experience as described in "1" above; or **4.** Education and experience equivalent to "1", "2" or "3" above. However, all candidates must have at least a four-year high school diploma or its educational equivalent and must possess at least three years of experience as described in "1" above, including the 18 months of administrative, managerial, executive or supervisory experience as described in "1" above.

Essential Skills

• PeopleSoft Certified Developer preferred. • Working with an enterprise wide, large scale implementation • Experience working with PeopleSoft Implementations in a government or civil service environment. • Excellent Communications skills (Oral and written), interpersonal, and organizational skills are required. • Experience working within a matrix environment.
