

Position: Programmer/Analyst

The Queens County District Attorney's Office a programmer/Analyst to join it's software development team.

This position requires a mixture of skills. At times, the programmer/analyst might exclusively be doing programming; other times developing crystal reports; still other times, performing end-user training and writing documentation. Responsibilities include, but are not limited to:

Developing and maintaining ASP.net and VB.NET programs.

Developing and maintaining SQL code, including queries, stored procedures, and triggers. Designing and implementing database schemas.

Training users in new systems and develop user documentation.

Designing Crystal Reports that meet user needs for operational and statistical tracking.

Requirements:

ASP.net/VB.net (at least 2 years).

VB6 (1 year) would be a plus.

Strong understanding of OOP

SQL, including Stored Procedures and Triggers

Experience in relational and/or Object Oriented data bases, including the design of well conceived relationships between tables/classes.

XML and Web Services

Crystal Reports' report development (at least 2 years).'

Excellent written and verbal communication skills.

Experience in training end-users and handling technical support questions.

Must be able to work at times independently with minimum guidance and supervision while at other times within a team arrangement.

Bachelors degree in Computer Science or related field or equivalent experience.

Strong written and verbal communication skills.

Excellent vacation and benefits package.

Equal Opportunity Employer. Send email with a cover letter and salary history to:
